MULTIPLE POP CHARTS 1944 - 1958

The single's chart debut date in this book is taken from the chart on which it first appeared if it hit more than one of the following pop singles charts published from 1944-58: Best Sellers, Jockeys, Juke Boxes, Top 100 or Hot 100. The single's highest position listed in the peak position column is taken from the chart on which it achieved its highest ranking. Also, that single's total weeks at #1 position are taken from the chart on which it achieved its highest total.

The Heavy Edition of this book also contains the single's total weeks charted.

#1 HITS

This section lists, in chronological order, the Number One Singles from April 1935 to December 2015.

Billboard's Best Sellers chart began on 27 July 1940, while the Hot 100 chart started on 4 August 1958. Prior to July 1940, we use the charts from the weekly radio show **Your Hit Parade**.

For the years 1943 through 1958 (when *Billboard* published more than one weekly pop chart) special columns are used to show the weeks each # 1 record spent on each of the various pop charts.

The date shown is the earliest date that a record hit # 1 on any of the pop charts. The weeks **bold** column lists the total weeks at # 1, from whichever chart it achieved its highest total. This total is not a combined total from the various pop charts.

Because of the multiple charts used in our research, some dates are duplicated, as certain # 1 hits may have peaked on the same week on different charts; therefore, the total weeks for each year may calculate out to more than 52.

ARTIST INDEX

In this section of **US Hit Singles**, we list every record that has hit the US Top Ten singles chart from 20 April 1935 to 26 December 2015.

The information is presented alphabetically by artist's first name (instead of the surname), and then chronologically for each hit.

Each hit single is catalogued with the following information: date disc first hit the chart, title of hit, highest position the hit reached on the chart, and total number of weeks spent at #1.

The Heavy Edition also contains the total number of weeks spent on the chart.

Symbols:

- ① Number One Hit
- ▲ Top Three Hit

Collaborations:

We have credited collaborative hits under the entries of all the artists involved. So, for example, you will find Aretha Franklin and George Michael's 1987 hit, "I Knew You Were Waiting (For Me)", listed twice - once under Aretha Franklin and once under George Michael. The points of this hit are given to both artists.
